Subject: Proposal for Cooperation with SRL Swiss on Refugee-Related Projects

Dear Sir or Madam,

We write on behalf of the Security Studies and Rule of Law Association (SRL Swiss), a Geneva-based civil-society organization whose members include former law-enforcement and security professionals as well as persons with direct experience of displacement and asylum.

SRL Swiss conducts work on security, the rule of law, human rights and social integration. We understand that SEM supports research, consultation and working-group initiatives concerning refugees and integration, and we would welcome the opportunity to contribute where our experience may be useful.

Our members combine professional experience in policing, security administration and legal frameworks with first-hand knowledge of the practical challenges faced by refugees. This perspective may be relevant to projects concerning social integration, trust in public institutions, community safety, access to services and the rule of law.

We would therefore be pleased to explore cooperation with SEM and other relevant institutions, including participation in consultations, workshops, research initiatives or working groups. We would also be available to present our work and discuss possible areas of contribution at a meeting convenient to your office.

Thank you for considering this proposal. We would be grateful for the opportunity to contribute to the shared objective of supporting refugees and strengthening successful integration into Swiss society.

Yours sincerely,

Board of Directors
Security Studies and Rule of Law Association
